### **1. NATURE OF OPERATIONS AND GOING CONCERN**

Ashley Gold Corp. ("Ashley" or the "Company") was incorporated under the Business Corporations Act (*Alberta*) on July 15, 2020. The Company's registered office is at Suite 1150, 707 – 7th Avenue SW, Calgary, Alberta, T2P 3H6 and operating office is at 820 – 1130 West Pender Street, Vancouver, BC, V6E 4A4.

On March 30, 2022, the Company filed the amended and restated prospectus with the British Columbia, Alberta, and Ontario Securities Commissions relating to an offering of 7,000,000 units (the "Units") at a price of \$0.10 per Unit (the "Offering"), with each Unit consisting of one common share in the capital of the Company ("Common Share") and one Common Share purchase warrant ("Warrant"). Each Warrant shall entitle the holder thereof to acquire one Common Share in the capital of the Company at an exercise price of \$0.30 for a period of 18 months from Closing, subject to acceleration in certain circumstances.

On May 2, 2022, the Common Shares of the Corporation were to commence trading on the Canadian Stock Exchange ("CSE") under the trading symbol "ASHL".

The Company's principal business activity is the acquisition and exploration of mineral properties in the natural resource sector with the long-term goal of divesting its investment assets at a profit. Ashley's mandate is to acquire in mining natural resource opportunities, primarily in the Americas and in metal deliveries. As at March 31, 2022, the Company has not yet achieve profitable operations and has accumulated deficit of \$254,42. For three months ended March 31, 2022, the company incurred \$27,212 net loss.

These condensed interim financial statements have been prepared on the assumption that the Company will continue as a going concern. The proposed business of the Company involves a high degree of risk and there is no assurance that the Company be successful in acquiring or divesting investment assets. The Company's ability to continue operations is not assured and is dependent upon the ability of the Company to obtain necessary financing to meet the Company's liabilities and commitments as they become due and the ability to identify and finance additional investments, generate future returns on investments, and achieve future profitable operations or obtain sufficient proceeds from the disposition of its investments. The outcome of these matters cannot be predicted at this time. The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations. These factors together raise substantial doubt about the Company's ability to continue as a going concern.

Since February 2020, the coronavirus("COVID-19") has threatened a slowdown in the global economy as well as caused volatility in the global financial markets. While the full impact of COVID-19 on the global economy is uncertain, rapid spread of COVID-19 may have an adverse effect on the Company's investments. The extent to which COVID-19 may impact the Company's business will depend on future developments such as the geographic spread of the disease, the duration of the outbreak, travel restrictions and social distancing, business closures or business disruptions, and the effectiveness of actions taken in Canada, the United States and other countries to contain and treat the disease. As of March 31, 2022, the Company has an accumulated deficit and expects to incur further loss in the development of its business. As a result, there is a material uncertainty that may cast significant doubt about the Company's ability to continue as a going concern.

These condensed interim financial statements were authorized for issue by the Board of Directors of the Company on May 30, 2022.

### **2. BASIS OF PRESENTATION**

These condensed interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standard ("ISA") 34 Interim Financial Reporting and they do not include all of the information required for full annual financial statements in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board.

### **2. BASIS OF PRESENTATION (Cont'd)**

Accordingly, certain information and footnote disclosure normally included in annual financial statements prepared in accordance with International Financial Reporting Standards (“IFRS”) have been omitted or condensed, and therefore these condensed interim financial statements should be read in conjunction with the Company’s December 31, 2021 audited annual financial statements and the notes to such financial statements. These condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information. Furthermore, these financial statements are presented in Canadian dollars which is the functional currency of the Company and all values are rounded to the nearest dollar.

#### **Accounting standards issued but not yet adopted**

The new standards or amendments issued but not yet effective are either not applicable or not expected to have a significant impact on the Company’s condensed interim financial statements.

### **3. EXPLORATION AND EVALUATION ASSETS**

**Ashley Property Option Agreement:** On July 22, 2020, the Company entered into a property option agreement with David Lefort, Jacques Robert, 9640355 Canada Corp. and Randall Salo (together the “Vendors”) where the Vendors granted Ashley the exclusive option to acquire 100% of the Ashley Property (the “Ashley Option”) (the “Ashley Agreement”). The Ashley property consists of 115 claims totaling 1,759.6 hectares, located in the Hincks, Montrose, Bannockburn, Argyle Township in Ontario about 21 km WNW of Matachewan, in the Larder Lake Mining Division and registered with the Ontario Ministry of Energy, Northern Development and Mines (the “Ashley Property”). If the Company fails to complete a liquidity event within 18 months of the grant of the Ashley Agreement, the Agreement will become null and void. The Vendors would retain 100% interest in the Ashley Property. A liquidity event is defined as all or substantially all of the outstanding common shares of the Company is listed on a Designated Stock Exchange.

On January 12, 2022 and later on March 18, 2022, the Company entered into a first and second amendment agreement, respectively, to extend the Liquidity Event by sixty (60) days to January 22, 2022 and May 22, 2022, respectively as per the Ashley Agreement dated July 22, 2020. In consideration, the Company made a payment of \$40,000 to the Property Owners, in accordance with the terms and conditions.

The Company was required to pay a quarterly-based royalty equals to 2% of Net Smelter Returnsto the Vendors, once the Company is on commencement of commercial production.

In consideration of the grant of the Ashley Option, Ashley must:

- Pay the Vendors \$40,000 within 30 days of executing the Ashley Agreement (paid). An additional \$30,000 will be paid if a liquidity event is not completed within 11 months of the date of the Ashley Agreement (paid during the period);
- Issue the Vendors an aggregate of 250,000 common shares of the Pan Pacific Resource Investments Ltd. (issued);
- Complete a minimum of \$100,000 of expenditures and obtain an independent technical report that meets the requirements of National Instrument 43-101 and that recommends further exploration on the Ashley Property within 12 months of execution of the Ashley Agreement (met);
- Pay the Vendors a royalty from any ores or minerals mined or extracted from the Ashley Property, including without limitations the approximately 100,000 tonnes of ore and 145,000 tonnes of tailings currently situated on the Ashley Property.

In order to maintain in force the Ashley Option, and to exercise the Ashley Option, Ashley must:

Balance, March 31, 2022	1,382,337	\$ 0.25	4.46

**5. RELATED PARTY TRANSACTIONS**

Key management personnel consist of the officers and directors of the Company and companies owned or controlled by the officers and directors of the Company.

As of March 31, 2022, the Company had an aggregate of \$1,807 (December 31, 2021 - \$Nil) travel expenses due to a director of the Company. The term of the due from related party is unsecured, non-interest bearing and due on demand.

As of March 31, 2022, the Company advanced an aggregate of \$23,551 (December 31, 2021 – 28,551) to Pan Pacific Resource Investments Ltd. (“Pan Pacific”), a shareholder of the Company, \$750 was inadvertently deposited directly to Pan Pacific for the share subscriptions to the private placement of the Company, \$2,900 was related to a payment of exploration expenditures and \$19,901 was for working capital of Pan Pacific. The term of the due from related party is unsecured, non-interest bearing and due on demand.

All related party transactions were entered into in the normal course of business and are recorded at the exchange amount established and agreed to between the related parties.

**6. CAPITAL MANAGEMENT**

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the acquisition, exploration and development of mineral property interests. The Board of Directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company’s management to sustain future development of the business. The Company considers capital to consist of shareholder’s equity.

The property in which the Company currently has an interest is in the exploration stage; as such the Company will rely on the equity markets to fund its activities. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable.

There were no changes in the Company's approach to capital management during the period ended March 31, 2022 and December 31, 2021.

### **7. FINANCIAL INSTRUMENTS**

#### **(a) Fair value**

The fair value of the Company's cash and cash equivalents, due from related parties, due to related party, share subscription received and accounts payable and accrued liabilities approximate their carrying value due to their short-term nature.

Financial instruments measured at fair value are classified into one of three levels in the fair value hierarchy according to the relative reliability of the inputs used to estimate the fair values. The three levels of the fair value hierarchy are:

Level 1 – unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – inputs other than quoted prices that are observable for the asset or liability either directly or indirectly; and

Level 3 – inputs that are not based on observable market data.

For the three months ended March 31, 2022 and year ended December 31, 2021, the fair value of cash and cash equivalents were measured at fair value.

The Company is exposed to varying degrees to a variety of financial instrument related risks. The Board approves and monitors the risk management processes, inclusive of counterparty limits, controlling and reporting structures. The type of risk exposure and the way in which such exposure is managed is provided as follows:

#### **(b) Liquidity risk**

The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. As at March 31, 2022, the Company had cash of \$7,319 (December 31, 2021 - \$93,753) to settle the total current liabilities of \$33,836 (December 31, 2020 - \$34,663). As at December 31, 2021, the total working capital of the Company was \$18,746 (December 31, 2021 – \$106,250). The Company believes that these sources will be sufficient to cover the expected short and long term cash requirements, by raising funds from private placements.

#### **(c) Credit risk**

Credit risk is the risk of a loss if a counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is limited to its cash and cash equivalents. The Company limits its exposure to credit risk by holding its cash and cash equivalents in deposits with high credit quality Canadian financial institutions.

#### **(d) Market Risk**

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, foreign exchange rates, and commodity and equity prices. Management does not believe that the Company is exposed to any material market risk.

### **8. SUBSEQUENT EVENT**

On April 29, 2022, the Company completed its initial public offering of 7,000,000 units ("Units"), at a price of \$0.10 per unit, for gross proceeds of \$700,000. Each unit consist of one common share in the capital of the Company and one common share purchase warrant of the Company. For its services, the Agent received a corporate finance fee, a cash commission equal to 10% of the gross proceeds of the Offering, and Agent's Warrants to purchase 700,000 Units of the Corporation at an exercise price of \$0.10 exercisable within 18 months from the listing date.

Subsequent to the three months ended March 31, 2022, the Company issued 300,000 common shares of the Company and paid \$100,000 cash to the vendors of Ashley Gold Property upon completion of a liquidity event such as trading on CSE per property option agreement dated July 22, 2020.
